## NEWARK DRIVERS TO HAVE ROADABILITY RUN.

Members of New Jersey Automobile and Motor Club Will Go to Belvedere Park—Loving Cup for Tourist Who Comes Nearest to Time Schedule.

H. A. Bonnell, chairman of the club run committee of the New Jersey Automobile and Motor Club, has announced a roadability run for members of the big Newark club next Sunday at Belvedere Park, fifty-two and a half miles from Newark, to be the destination, and Chairman Bonnell has received many inquiries regarding the route to be followed. The committee has secured a silver loving cup which will be presented to the member whose running time from Newark is nearest to the secret time schedule prepared in advance by Chairman Bonnell and his associates.

The committee will figure the time so that none of the drivers will have to exceed the speed limits of any of the towns and the club members who take part in the run will be asked to observe the speed limits on the run. The committee is planning to have the drivers leave their homes or the clubhouse at East Park street and at a place near Newark, about 6 o'clock on Sunday morning and arrive at Belvedere Park about 12 o'clock, so that dinner may be served to the party promptly at 12:30 o'clock.

The officials of the Lehigh Valley Railroad have given special permission for the clubmen to drive their cars inside the railroad tracks. The route selected by the committee is through Irvington, Springfield, Plainfield, Dunellen, Bound Brook, Elizabeth, Plumckin, North Branch, Clinton, Perryville and Pattenburg to Belvedere.

It is expected that the second annual good roads convention at Cleveland, Ohio, on September 21 to 23 will be attended by a larger number of delegates than any previous gathering of improved highway advocates in this country.

The local situation is best indicated by the fact that the city of New York, which covers 327 square miles, has 5,040 miles of streets, which if placed in a straight line would reach to the city of New York, N. Y., back again, and it is possible to go over forty miles in a straight line without leaving New York city.

Another old type of road which is almost extinct in New York city, is what we call cobblestone roads. A cobblestone is a small, round, smooth stone, which is used to make a road surface.

After a session which started off with a rain, the day in the city of New York was a success. The rain did not prevent the drivers from going on their run, and the weather was just what was needed for the occasion.

The chief of police of Springfield, Mass., has formed the idea of having a roadability run for members of the Springfield Automobile Club, which is to be held on the Springfield road, which is a very good road, and the Springfield Automobile Club is a very active organization.

# THE REAL ESTATE MARKET

## PRIVATE SALES, LEASES AND PUBLIC AUCTIONS.

The Long Island Brewing Co. Disposes of Its Brooklyn Plant—An Architect Leases the Two Story Stable Building at 130 East Nineteenth Street.

The real estate market was seasonably dull in all its branches yesterday. Brokerage trading was limited in volume and involved for the most part inexpensive private dwellings on the upper West Side. In the auction room the normal routine business was transacted. No plans for new construction work in Manhattan went on record.

**THIRTY-SIXTH STREET.**—Hopkins & Co., 363 Madison street, the seven-story Real Estate Company, have sold for Dr. John M. Macdonald, of Belleville, N. J., a two-story, five-story building on lot 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58,
